Dear Supervisors

My name is Mrs. Karen Shreve. Yes, I am related to the Smith-Covey's. I have never lived full time on the 4HorseRanch. I have maintained my own residence in Concord and currently I live in Valley Springs. If required I can produce proof of both addresses.

I have seen Jason Freeman speed past the horse corrals and paddock throwing gravel and dust in his wake. Multiple times I have seen Jason, his wife, son or even his daughter-in-law do this too. I have witnessed Jason verbally assault Alexandra Ramos while he used a string of profanity and aggressive body language, young children were present. Her offense, she asked him to slow down. Others have witnessed this at other times. I have never seen a Smith-Covey be disrespectful to a Freeman.

The work that 4HR is doing in the area of Ag Tourism is commendable. I have seen 50,60,70 and even an 80 year old do trail rides for the first time. It is also amazing how different ethnic groups gravitate to them! They do an amazing job explaining our ecosystems, explaining ranching culture, local folk lore, and more while on trail rides.

I have never seen so many cars on that road that a large fire truck or dump truck could not easily pass. Recently I did see a large hay truck and a dump truck pass each other. I believe Lynette has a picture of it.

Please allow 4HR to continue their important work in our community. They only want to do what they do, in peace.

Respectfully submitted
Mrs. Karen Shreve
